
Recent Chinese Meteorological Society Activities

IFMS GM3 • Reading, UK
12 Sep 2013

中国气象学会
Chinese Meteorological Society

Outline:

- 1. Academic Exchange**
2. Outreach to General Public
3. Journal Development
4. Overseas Cooperation
5. Awards

-
- CMS Annual Meeting
 - Forum and composite

29th CMS Annual Meeting

- Theme: Strengthen Sci and Tech basis and speed up modernization of meteorological operation
- 18 Sessions
- Journal Seminar, Commercial Enterprise Seminar
- Poster Sessions
- Reception and Award Ceremony

热烈欢迎全国各界朋友莅临南风大剧院

President Qin chairing the Annual Meeting of CMS

The audience

CMA Deputy GA
delivering a speech

Plenary Session Invited Speakers

S1 Weather Forecasting

S2 Short-Term Climate Prediction

S3
Climate Change

S4 Tibetan Plateau

S5 Arid and Semi-Arid Climates

S6 Atmospheric Composition

S7 Climate and Human Health

S8 Atmospheric Observation and Instrumentation

S9 Radar Observation Technology

S10 Agro-Meteorology

S11 Monsoon

S12 Hydro-Meteorology and Geological Hazards

S13 Lightning Prevention

S14 Space Weather

S15 Cryosphere and Polar Meteorology

Annual Meeting Best Paper
Award

第29届中国气象学会年会

强化科技基础 推进气象现代化

Best Poster
Award

发言内容

ZJUITPE

姜克隽研究员你好！我是浙大能源系的学生，我的专业方向跟传统的燃煤发电紧密相关，一直以来，我都在国家的能源结构问题，大家知道，核电因为遭受福岛核电厂事故遭遇寒冬，光伏产业因为核心技术掌握在欧美厂家手里，国内厂家只是负责组装的多，诸如保定天威，无锡尚德，江西赛维LDK，都在遭遇寒冬，燃煤发电依然占据主要地位1，试问，碳排放如何降下去？【10:54:04】

135****0140

既然人定胜天是神话，那为了我们子孙后代的生存，请问我们的政府在气候变化与低碳经济方面将采取那些切实可行的举措？【10:53:59】

zjusutao

请问风能发电的气候影响有没有被评估，风能发电前景如何，如果核电是最理想的新能源【10:52:25】

139****3124

请问姜克隽研究员，我国已开展环评和能评，会开展碳评吗？如果开展碳评，碳排放量测算方法学上，Ipcc的测算方法合适吗【10:50:27】

137****061

问一下宋研究员，有没有直接的数据证明当前极端天气增多与气候变化之间有关？根据北大承继成等教授对考古数据的分析，地球发展冰期极端天气事件其实更严重。【10:50:10】

139****2333

是不是以后空气也要收费了？【10:49:08】

137****8160

风能太阳能一种清洁能源，对低碳经济发展十分重要，请问专家如何看待黑龙江发布的《风能太阳能开发条例》【10:48:36】

zjuy1b

请问宋连春研究员，日益频繁的极端天气使得人工干预越来越多，这种干预的施加是否会造成干预和气候异常加剧的恶性循环？另一个问题是：除了对气候地质灾害的监测和预报，更为基础的机理性研究性工作有哪些开展？谢谢！【10:39:00】

151****9172

中国对极端天气变化做了哪些应对措施？【10:36:46】

迷惑

请问秦院士，人类活动对气候的影响到底有多大？气候变化是自然发展变化或是人类活动的影响占的比重大一些？【10:33:55】

Extreme Weather and Public Service Forum

Acadmeian Li Zechun
delivering a speech

Inter-disciplinary academic exchange

- Collaboration with **other societies** such as Chinese Environmental Science Society, Chinese Hydrological Society, Chinese Energy Research Society, Chinese Sustainable Energy Society, etc.
- Collaboration with **provincial government** such as Hebei, Hunan, etc.
- Collaboration with **universities** and high education institutes

Outline:

1. Academic Exchange

2. Outreach to the General Public

3. Journal Development

4. Overseas Cooperation

5. Awards

Thematic Outreach Activities

3.23 World Meteor Day (2012)—

- activities in residential communities
- Outreach activities on trains
- space weather seminar
- CMA campus' open day
- public survey on met outreach

Disaster Prevention and Mitigation Day

Exhibition of Met Service for Agriculture

- **Activity Launch Ceremony with presence of over 300 farmers in Jilin Province**
- **Site Show with weather modification**
- **Consultation**
- **"Met for Agriculture Workshop" with local farming personnel**

中国气象学会
Chinese Meteorological Society

科普惠农活动启

Opening Ceremony

Workshop

Students' Tour Outreach Activity on Coping with Climate Change and Preventing Met Disasters

- **Theme: Spread Knowledge on coping with climate change and Preventing Met Disasters**
- **2000+ volunteers in 210 teams from various universities traveling around China for one month**
- **Coverage: 800+ counties and towns, 17000+ farmer families, 400+ primary and middle schools, with 1.4 million copies of flyers and brochures**

31th Met Summer Camp

- 247 teenage participants
- All kinds of activities related to meteorology

天气预报“揭秘”

天气与人类相伴，千百年来，面对风云变幻的天气，人们探索未来天气状况的足迹从未停止过。随着时代的进步，天气预报理论逐步完善，气象科技水平不断提高，提前并较为准确地预测天气的变化已成为现实。

如今，天气预报已成为人们生活中不可缺少的内容。那么看似简单的天气预报是怎样制作出来的？实际上，天气预报的制作过程是一项浩大的系统工程。它是以大气运动的状态演变为基础，以大气运动规律为依据，通过综合分析、推算出大气的未来运动状况。简单地说，天气预报是由大气综合探测、气象资料采集、气象信息加工处理、天气预报制作、气象信息服务等几大系统组成。应该说每一个正确的天气预报，都凝聚着全球无数气象工作者的心血。

天气预报为促进社会经济发展和保障人民生活发挥了巨大作用。我们相信：随着科学技术的发展，天气预报将迎来更加美好的明天。

Outline:

1. CMS Culture and Capability Building
2. Academic Exchange
3. Education and Outreach
4. Journal Development
5. International/Overseas Cooperation

Measures and improvements

- Open Access publication
- Adopting the international responsible editor model
- Accelerating the publication speed
- Implementing “Online First”
- Collaboration with international publishers such as Springer, Thompson Reuters

Measures and improvements

- *Acta Meteor Sinica* renamed to *Journal of Meteorological Research (JMR)* starting from the 2014 volume
- Supported by the “Internationalization of English Academic Journals in China” Project funded by CAST

Measures and improvements

- CMS Met Journal Working Committee (MJWC)
- Establishment of the Met Journals Group
- Quality publication and international visibility

Capability Building for Journals

Digitalization in Journal publication

- Real-time Open Accesses, Email subscription, RSS,
- Early online release
- Manuscript Online Processing Systems:
Qinyun & ScholarOne Manuscript
- Planning to build a multi-media digital publication platform

Outline:

1. Academic Exchange
2. Outreach to the General Public
3. Journal Development
4. Overseas Cooperation
5. Awards

Overseas Cooperation

- Participated in Macao Met Service 60th Anniversary
- CMS member attended the ETMS conference
- Participated in “Cross-Straits Met Disaster Mitigation Symposium” in Xiamen, Fujian Province
- Attended “2012 Cross-Straits Weather Analysis and Forecast Symposium” in Taiwan
- Hosted “2012 Cross-Straits Met Sci & Tech Conference” in Beijing

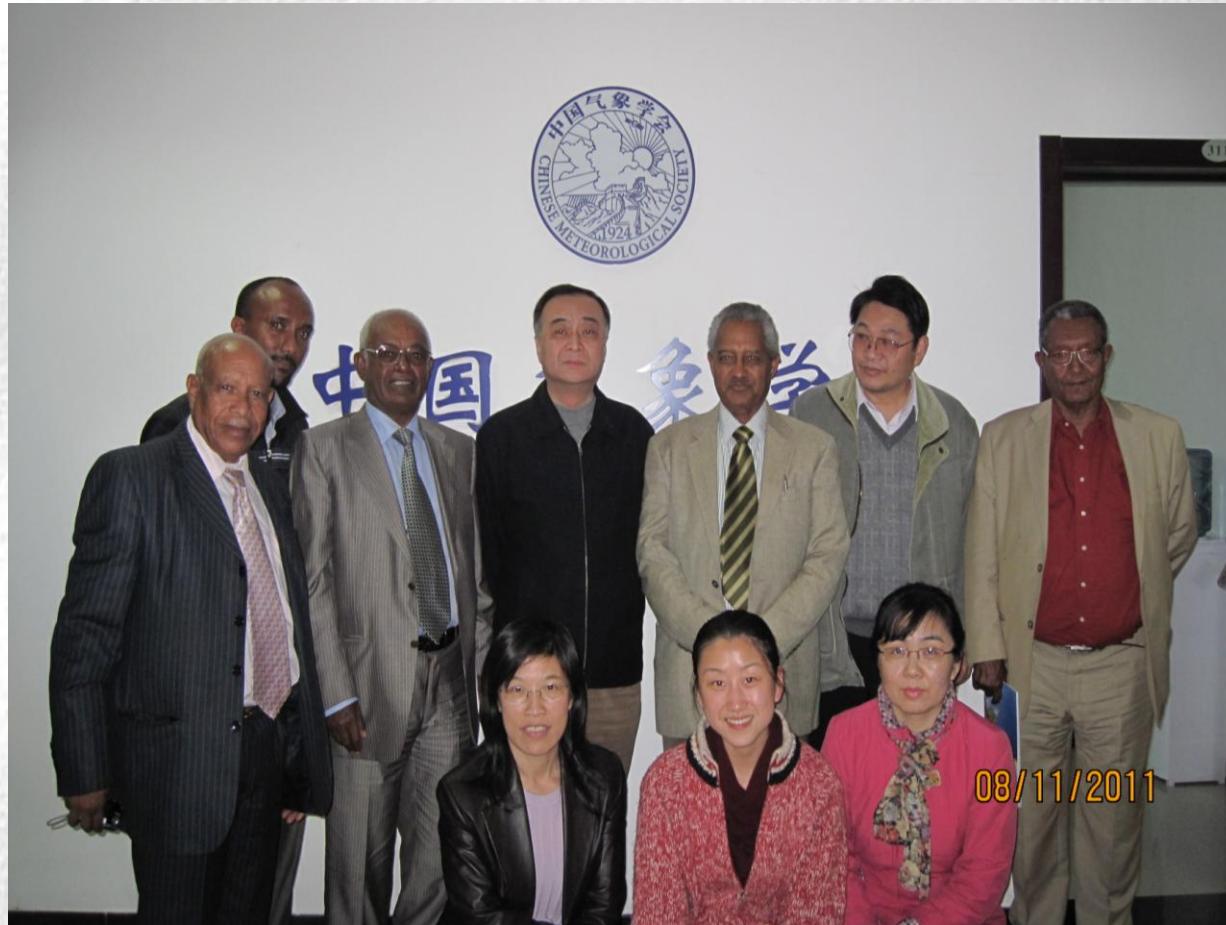

Cross-Straits Academic Exchange

中国气象学会
Chinese Meteorological Society

Ethiopian Delegates Visit

中国气象学会

Outline:

1. Academic Exchange
2. Outreach to General Public
3. Journal Development
4. Overseas Cooperation
5. Awards

Awards

- The ZOU J. M. Prize
 - The Tu C.W. Prize
 - Best Local Chapters of CMS
-
- Nomination of recipients of CAST National Outstanding Science and Technology Professionals Award

- Ten “Best Local Chapters of CMS”

表彰2011年

Awards issued to CMS in 2012–2013:

1. Nation NPO Assessment Grade 4A (5 highest)
2. CAST Outstanding Society Award 3rd Grade

中国气象学会
Chinese Meteorological Society

Special Prize of China Government Innovation Awards

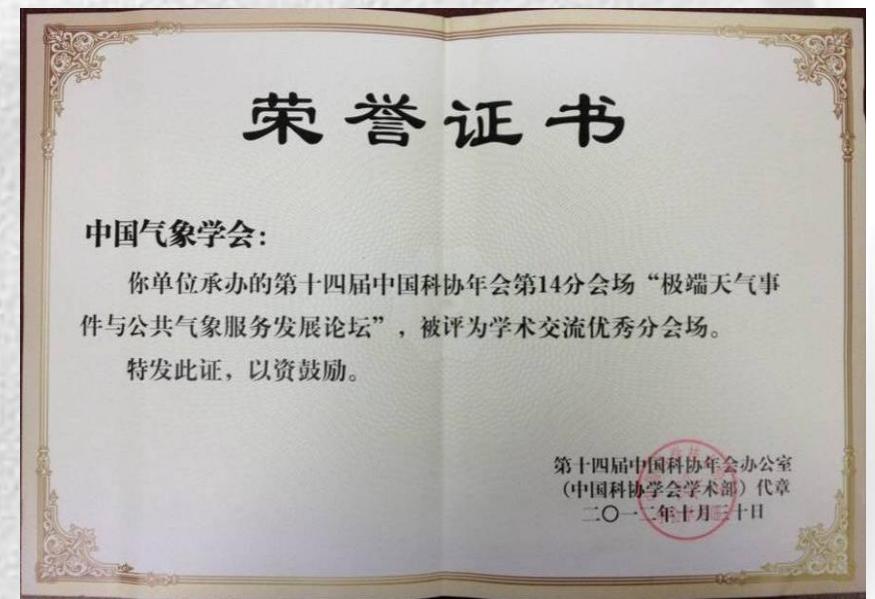

Excellent Society of CAST:

中国气象学会
Chinese Meteorological Society

Best Organization Award for National PHD Student Annual Conference

CAST Annual Conference
Best Session Award

中国气象学会
Chinese Meteorological Society

2012 The Highest International Impact Academic Journals of China (Science/Technology/Medicine) 175 Titles

We are two of them!

中国气象学会
Chinese Meteorological Society

The Coming Major Activities

- 30th CMS Annual Meeting
- 6th China–Korea–Japan Meteorology Conference

Major Activities in 2014

- CMS 90th Anniversary Celebration
- CNC–IUGG Conference

Thanks for your attention!
